1.30 pm Lunch

2.30 pm – 4.30 pm: Strategic Orientation: debate and perspectives

Two years ago, we had chosen two general strategic goals:

- The network expansion and its strengthening for a systemic change of the socio-economic models at a European level
- A convergence of forces for change embodied by various movements that help to the research of democratic, equal and ecologic society.

During this session, will address the co-construction of a shared perspective about public policies that we want to promote at all levels. We want also to debate about the strategic priority over the next three years based on the members' experiences.

4.30 pm Closure

Members are asked to specify by whom they will be represented at the General Assembly.

Members that are represented by a man and a woman have two votes in total. Members who cannot attend the GA can be represented by another member by a written proxy (only one vote in this case). The number of proxies for each delegate is limited to only one.

Only members who have paid their membership fee (€ 100) have the right to vote.
